

Press Release

Czech Brand Epico Introduces a Full Range of Accessories for the New Apple iPhone 16e

Prague, 20 February 2025: Czech accessories manufacturer Epico, thanks to its close connection with Apple products, is ready for the launch of the new iPhone 16e and is introducing a wide range of accessories. This includes high-quality cases tested for extreme durability, six types of screen protectors, and two sets of camera lens protectors for the new iPhone.

Epico's lineup for the new iPhone 16e will hit the market simultaneously with the phone's availability. It features a broad selection of cases, including the premium **Mag+ Hero Case Pro** with an aluminium frame and wireless charging support, as well as the popular colourful **Epico Mag+ Silicone Case Pro**. For demanding users, the range includes **Mag+ Leather Cases** in elegant colours and the ultra-rugged **ImpactBuffer Mag+ Case**, SGS-certified for drops from up to 3 meters.

To protect the display, Epico has developed six different screen protectors. These include the highly durable **ImpactBuffer Glass 3D**, capable of withstanding a drop of a 300g metal ball from 2 meters, the **Epico AntiBlue Glass 3D**, which reduces blue light penetration, and the **Epico Privacy Glass 3D**, which increases privacy by limiting the viewing angle and protecting the screen from unwanted glances.

*"Thanks to our long-term connection to Apple products, we can develop and manufacture accessories well in advance. We're now stocking the first models of accessories for the new iPhone 16e. Even for the most affordable iPhone, we've included some premium products originally developed for higher-end models, like our ultra-durable **ImpactBuffer** range. The only top-tier glass we're not currently planning to offer for the 16e is our recently introduced **ImpactCeramic Glass 3D**, which can withstand a drop of a 500g steel ball from 2 meters," says Roman Nováček, co-founder of Epico.*

Once again, Czech company Epico confirms its strong international presence in the mobile accessories market. Most of the upcoming Epico accessories for the Apple iPhone 16e will be available in the Czech market at the same time as the phone.
